The investment is a unique apartment complex where elegance and modernity meet nature. This translates into luxurious interiors designed for those who appreciate the combination of the highest standard with respect and admiration for the surrounding environment. Indeed, the flats use forms, shapes, materials and textures familiar to us from the landscape to create unique spaces. The investment is modernist minimalism, into which the beauty of nature has been breathed.

The investment is located in an exceptional location - at the historic Lighthouse in Hel, a Baltic seaside resort. Its location on the Hel Peninsula means that the flats are surrounded by the sea on three sides, which gives amazing views. The Hel Spit is very interesting in terms of nature and landscape, and the surrounding area is beautiful. Hel is home to a fishing harbour, the Sealarium and the Seaside Landscape Park. This is the perfect location for those who love the sound of waves, fresh fish, breathtaking views and the feeling of sand underfoot.
