Description

We are selling a house in a quiet, green area (beautiful wooded plot - even ceps grow) in Stare Rembertów. It takes about 20 minutes to get to the centre of Warsaw by car. Great location!

A detached three-storey 380 m² house with a balcony across the width of the front elevation (south-west exposure) and two cosy loggias (east exposure), on a 1425 m² plot with a detached garage.

Here we have a large living room with atmospheric fireplace and classic Mexican bar and a separate dining area. Separate kitchen with window. Six rooms for any purpose (from study to bedrooms). Also with the possibility of creating a kitchen on each floor - so that three independent flats can function. However, the whole is also excellent as a large single-family home. Of course we have a laundry room, utility rooms, storage rooms, boiler room.

The house, built in traditional technology from gozobeton blocks (external walls) and solid bricks (structural walls), designed as a family residence will work equally well as several independent flats. Roof of wooden construction covered with Swedish tiles. Wooden door and window joinery.

Technical details and consultations - by phone.

We invite you to contact us and to a presentation at a convenient time for you.
