Description

The serviced office offer is aimed at companies looking for flexible lease terms and the possibility to use the office on a rotating basis. It is the ideal solution for those who need creative space only when it is necessary.

If your company needs such flexibility, it is worth considering renting an office in Warsaw. There is plenty of office space available in the capital city that can be rented for short periods without long-term commitments.

Remember that flexible offices can help your business adapt to changing needs and make the best use of space.

The advantages of renting coworking space are numerous and benefit companies looking for flexible solutions.

- 1. access to multiple equipped meeting rooms:** Coworking with other companies in a coworking space allows you to use a variety of meeting rooms, which is invaluable when organising meetings, presentations or workshops.
- 2. Independent office with access control:** The offices in the coworking space are secured and access is only available to authorised persons. This is a guarantee of privacy and security.
- 3. Rotating work:** With flexible workstations, employees can use the office at different times, allowing for efficient use of space.
- 4. Chillout zones and working in isolation:** Shared coworking spaces offer both places to relax and quiet corners to focus.
- 5. Reception service:** Professional reception staff ensure the comfort of guests and clients.
- 6. First-class building in a business environment:** Coworking locations are often located in prestigious buildings, which further enhances the image of the company.
- 7. Flexible rental period:** The possibility to rent for a short period (from 1 to 12 months) allows companies to adapt the space to their current needs.
- 8. Access to public parking:** Employees can use convenient parking in the area.
- 9. Daily cleaning service:** Offices are kept clean, allowing you to focus on your work.
- 10. Fully equipped office rooms of a higher standard and quality:** Shared offices offer modern

furnishings, ergonomic furniture and access to essential tools.

It is worth noting that the rental fee includes all components, including utilities (electricity consumption, internet fee). Our company will help you choose the right space at no extra charge. Please do not hesitate to contact us! Our offer includes the rental of up to one workstation in a dedicated office with access control. The standard rental period is 6-12 months, but there is also the possibility of renting for an indefinite period.

- Possibility to register your company at a prestigious address.

- Package of hours to be used for meeting rooms.

- Additional services included in the price, such as internet and reception service.

If you need non-standard solutions, e.g. an additional internet connection, non-standard space design or additional rooms, we are open to any proposals. Contact us and we will prepare a dedicated offer for you under specific guidelines!
